PROFESSIONAL SUMMARY

Software Engineer building real-time, high-throughput systems with FastAPI, Kafka, and Docker. Worked on large-scale surveillance infrastructure handling 3,500+ concurrent feeds at NEC.

EDUCATION

LOVELY PROFESSIONAL UNIVERSITY	Cumulative : Pursuing	Paghwara, Punjab
Master of Computer Applications in Machine Learning		Expected Oct 2027
GALGOTIAS UNIVERSITY	Cumulative GPA: 8.76/10.0	Greater Noida, Uttar Pradesh
Bachelor of Computer Applications in AI & Machine Learning		Sep 2022 - Sep 2025

WORK EXPERIENCE

NEC CORPORATION INDIA PVT. LTD.	New Delhi, India
Software Engineer (Apprentice)	Aug 2025 – Feb 2026
- Designed and maintained real-time alerting systems for Delhi Safe City, processing 3,500+ concurrent camera feeds with high availability and low-latency constraints using Genetec Security Center. - Deployed Awiris AI analytics (TensorFlow/OpenCV) for real-time face and anomaly detection across large-scale surveillance systems. - Built and deployed end-to-end ML pipelines for real-time alert generation, reducing deployment time by 40% and improving system responsiveness.	
ISRO (DEHRADUN)	Dehradun, India
Data Analyst Intern	Feb 2025 – Mar 2025
- Deployed TensorFlow models for satellite imagery classification, achieving a 30% increase in accuracy on complex geospatial datasets. - Refactored Python preprocessing pipelines, improving geospatial data processing efficiency by 25%.	

PROJECTS

SMART SURVEILLANCE & INTRUSION DETECTION SYSTEM
- Built a FastAPI-based real-time computer vision system processing live video streams for automated tripwire alerts with low-latency response. - Designed scalable backend architecture to handle concurrent video feeds under high-load conditions.
REAL-TIME POSE RECOMMENDATION SYSTEM
- Developed a real-time pose recommendation system using MediaPipe, analyzing live camera input to suggest context-aware poses. - Optimized inference pipeline for low-latency feedback, improving real-time user interaction performance.

ACTIVITIES

GALGOTIAS TECH COUNCIL	Greater Noida, India
Vice President – Outreach Department	2023–2025
Organized and advertised 10+ quarterly networking events with 300+ participants from 8+ universities	
GLOBAL AI HACKATHON CIRCUIT	New Delhi, India
Active Competitor	2023 – Present
Consistently building and deploying production-ready AI prototypes in high-pressure, 48-hour competitive sprints.	

ADDITIONAL

Languages: Python, JavaScript	Core: Data Structures & Algorithms, System Design, DBMS, OS
Backend: FastAPI, REST APIs, JWT	Databases: PostgreSQL, Redis
Tools: Docker, Kafka, Git, Postman	AI/ML: TensorFlow, OpenCV, MediaPipe
Platforms: Genetec Security Center, Awiris AI	DSA: 300+ problems (LeetCode, GFG – Graphs, DP)
Certifications: NAPS Software Developer (NEC India); Geo-Data Processing using Python & ML (ISRO)	
Awards: Winner – Bharat Shiksha Expo Idathon; Finalist – Smart India Hackathon & Xylem Water Solutions
